Exclusive Distributor of **AccuCrimp™**

Exclusive Distributor of AccuCrimp™

LaSalle Bristol is the exclusive distributor of the AccuCrimp™ Poly Alloy fittings for PEX pipe in the RV and manufactured housing markets. The AccuCrimp™ fittings have positioning tabs which perfectly locate the crimp ring over the barbs every time. All AccuCrimp™ Poly Alloy PEX fittings are manufactured to the ASTM F2159 Standard Specification for Plastic Insert Fittings. AccuCrimp™ PEX fittings are interchangeable and compatible with all other fittings manufactured to this same standard. F2159 fittings are made in Canada with domestic materials. AccuCrimp fittings are certified and listed to the cNSF®us pwG, UPC and CSA B137.5.

LaSalle Bristol distributes PEX pipe in both coil and straight lengths. Our PEX-B pipe is made of cross-linked polyethylene, produced using the silane method of cross linking and performance specifications of ASTM F876/F877 and CSA B137.5, compatible with fittings under standard ASTM F2159/F1807. PEX pipe offers excellent corrosion resistance, flexibility and unusual toughness while allowing for fast and easy installation. LaSalle Bristol offers a full program of PEX pipe that is available in sizes from 3/8" to 1" and in colors red, blue and white.
