## CATALOG

TEES • ELBOWS • ADAPTERS  
COUPLINGS • WYES • P-TRAPS

LaSalle Bristol offers a complete line of PVC fittings for the RV and Manufactured Housing industries. Many of the fittings are made in our own manufacturing facility. LaSalle Bristol Manufacturing is an ISO9001 certified manufacturing facility located in Plymouth, IN near the heart of the RV industry. We produce injection molded products including ABS and PVC drainage, waste and vent (DWV) fittings. We also do assembly of components into finished products.

LaSalle Bristol has been proudly serving the RV and Manufactured Housing industries with innovation, quality products and exceptional service for over 50 years.

PVC fittings are used for the DWV systems primarily in Manufactured Housing because of the durability and resistance to chemicals and corrosion. The parts are joined using primer and solvent weld or threading.

DWV fittings include elbows, tees, couplings, flanges, P-Traps in a variety of sizes.
